SCMF (Structured Crew Management Framework)

QHSE - quality

In IISP we are committed to:

- Pursue long term growth and profitability through the delivery of high-quality services.
- Aim towards being objectively recognized by our customers as having the highest quality performance in our industry.
- Deliver high quality in all our activities, onshore and offshore, through safe and efficient operating processes.
- Improve our processes and the effectiveness of our management system.
- Manage and control risks systematically.

Through exercising our core values and principles in everything we do, we utilize continuous improvement and quality management to maintain and deliver a consistent performance to our company.

To fulfill our commitments we:

- Apply high standards for well maintained, efficient and innovative equipment.
- Maintain a world-class management system containing all our processes and procedures and make them readily accessible.
- Comply with the ISO 9001:2015 standard.
- Comply with applicable laws and regulations.
- Have a structured approach to embedding risk management into our processes.
- Promote a culture that supports our commitment to quality management.
- Coach our employees in understanding how their activities influence the quality of services.
- Implement Lean and Six Sigma methodologies for process improvement.
- Require key suppliers and contractors to manage quality in accordance with this policy and use our influence on others.
- Rigorously monitor our performance and relentlessly pursue improvements in every aspect of our work.
- Seek feedback from employees, customers, regulators on ways to improve.
- Drive continual improvement of quality through open communication and innovative thinking

QHSE – health, safety, security and environmental

In IISP we are committed to:

- Provide a safe and secure workplace.
- Promote healthy work practices and support a healthy lifestyle.
- Pursue the goal of no harm to people.
- Protect the environment.
- Use technologically advanced and environmentally protective materials and equipment.
- Play a leading role in promoting best practices in our industries.
- Manage HSSE matters as any other critical business activity.
- Manage and control risks systematically.
- Maintain the integrity of our assets.

We aim to achieve a HSSE performance we can be proud of. We want to be a good corporate citizen and contribute to sustainable development. This way we earn the confidence of employees, customers, and society at large.

To fulfill our commitments we:

- Have our leaders and managers actively demonstrate their commitment to HSSE.
- Have a systematic approach to HSSE and Process Safety management based on compliance with laws and regulations.

IISP Sustainability Framework:

Together with the Corporate Social Responsibility Policy and the Quality Policy, the Health, Safety, Security and Environment Policy constitutes the IISP Sustainability Framework.

- Drive continuous performance improvement of HSSE and Process Safety by establishing clear objectives and targets.
- Apply policies and guidelines for HSSE through our management system.
- Promote a culture in which all employees share our commitment.
- Encourage employees to freely submit improvement ideas.
- Stop the job in situations which feel unsafe.
- Pursue the goal of zero accidents by actively using lessons learned.
- Include HSSE performance in the appraisal of staff and reward accordingly.
- Coach employees, and measure and report on HSSE performance
- Maintain ISO 14001 :2015 ,OHSAS 18001:2007 ISPS and ISM certification as applicable
- Require contractors under our operational control to manage HSSE in accordance with this policy and use our influence on others.
- Require joint ventures under our operational control to apply this policy, and use our influence to promote it in our other ventures.
- Measure and benchmark HSSE performance internally and against market leaders.

QHSE – corporate social responsibility

In IISP we are committed to:

- Act responsibly towards our, employees, customers, business partners and towards the communities we operate in.
- Integrate concerns for people, planet and profits into our decision making, business procedures and risk management.
- Secure commitment across the organization to protect the climate and society in general.
- Maintain close and strong stakeholder relationships on a local and corporate level.
- Manage and control risks systematically.
- Play a leading role in promoting best practices in our industry.

By continuously optimizing our social and environmental performance, we aim to improve our CSR commitment to strengthen our position in the oil and gas offshore market.

To fulfill our commitments we:

- Establish clear CSR objectives, strategies and action plans.
- Apply policies, processes and guidelines through our management system to secure consistent and high standards on how we conduct our business in relation to Anti-corruption, Responsible Procurement and Global Labor Principles.
- Comply with international legislation and regulations, and be active in driving improvement.
- Promote a culture in which all employees share our CSR commitment.
- Actively involve the organization in CSR matters to develop the understanding and roles in conducting socially responsible business.
- Require our general supply chain and contractors to comply with our Third Party Code of Conduct
- Monitor our CSR performance by applying measurements and impact assessments, and constantly pursue continuous performance improvement.
- Report our CSR performance externally and openly communicate our activities and achievements to secure transparency.
