About Us

Smart Enterprises Solution Company

DIGIMIND, established in 2010, is a fast growing enterprise solutions company capturing the market with its multi-tenanted cloud and mobile-based enterprise software. We work closely with our clients to help them successfully build and execute critical business strategies by providing reliable and cost-effective IT solutions .

DIGIMIND Technology offers a comprehensive range of IT services such as business process solutions, next-gen mobility solutions, consulting solutions, managed services and E-Commerce Solutions to clients in diverse industries, such as Manufacturing, Supply Chain, Healthcare, Auto Mobile, Education, Hospitality, Financial Services, Telecommunications to name a few.

We are a group of experienced, energetic and expert IT professionals committed to provide customized solutions using latest IT technologies to increase their productivity and give them the leading edge in today's highly competitive environment.

DIGIMIND Technology can bring you the benefits of working with a partner having software skills, project management experience and domain knowledge in every aspect of Information Technology.

Vision & Mission

Vision

To emerge as a leader in the Indian “Information Technology” industry - through total customer satisfaction & employee motivation. To provide the industry with a broad interconnected variety of software tools that help them reach a high quality standard.

Mission

Helping our customers achieve their business objectives through best-in-class consulting, products and services. We also maintain highly professional, employee friendly, and creative work environment, which respects diversity, creative ideas, and hard work.

Values and Beliefs

A commitment to innovation and excellence.

**Excellence is a
continuous process and
not an accident.**

-A. P. J. Abdul Kalam

Our Major IT Services

Software Product Development

We study your complete organizational operations to offer you high quality, efficient IT solutions which evolve with your company's requirements. We can offer you customized software solutions on different scales.

Maintenance & Support

Our support & maintenance model is designed to address your key concerns on full time availability and secured access. It enables you to focus on your core business activities and yield better work productivity.

Web Application & CMS Development

Technically comprehensive application development with high-end customization to meet client specific business needs. Our E-Commerce solution help you sell to your customers through user & mobile friendly design. Web CMS allows you to control and manage the content within your web site.

IT Consultancy and Out Sourcing

With over 5 years of experience in developing complex software solutions for enterprises, SMBs, and start-ups, Digimind can help your business discover new opportunities for growth and develop comprehensive product strategies.

Enterprise Mobility

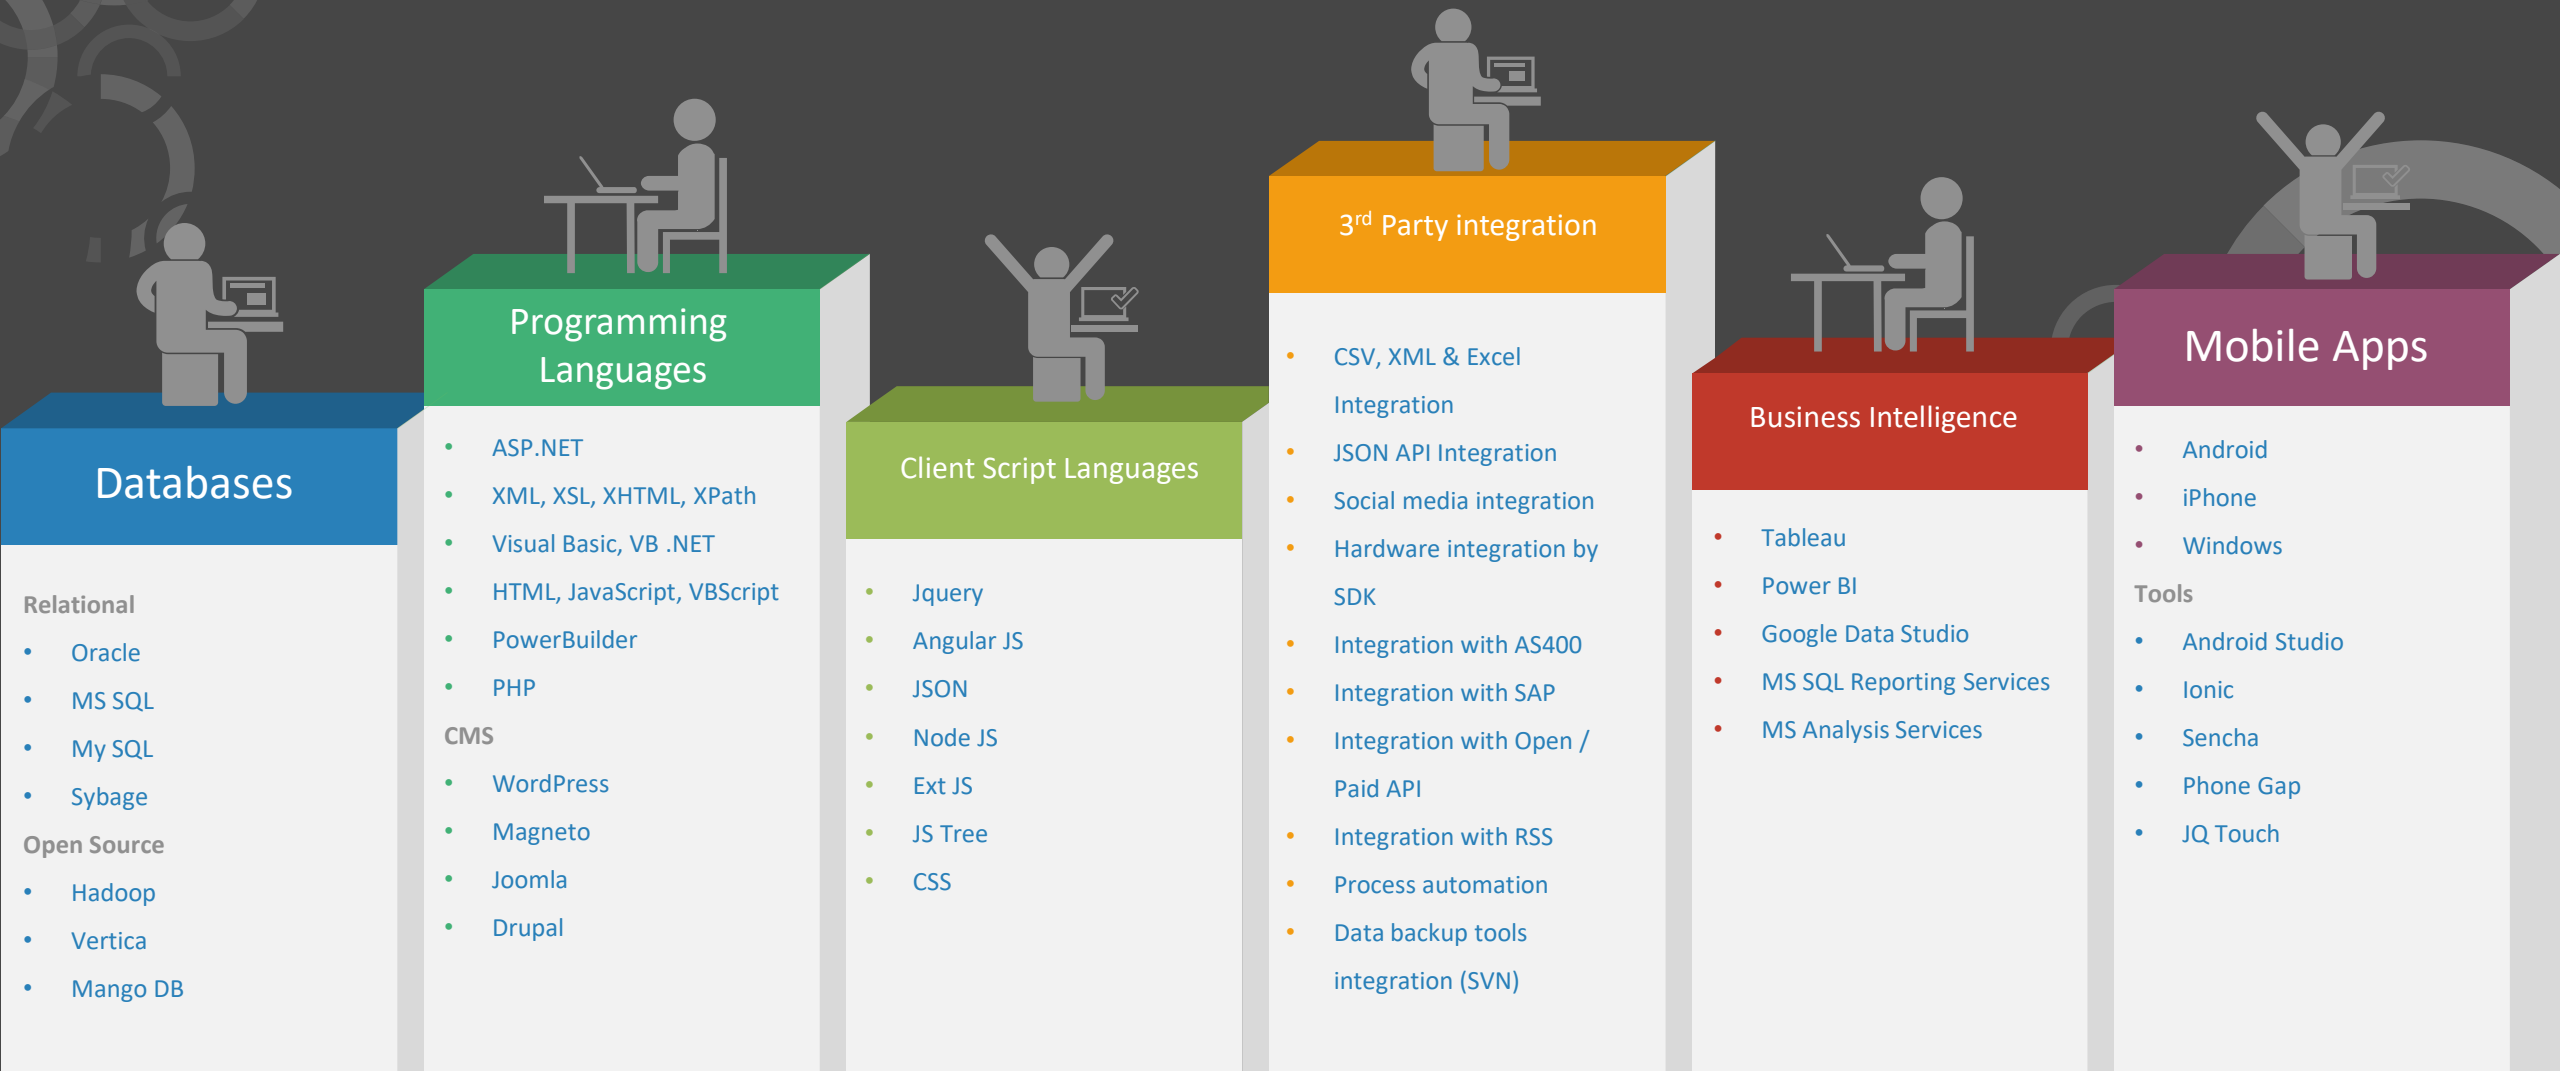

We offer a complete spectrum of services — from envisioning and business consulting to mobile-based business solutions, intellectual property-based mobile technology solutions, mobile application development and maintenance, and industry-focused mobility solutions.

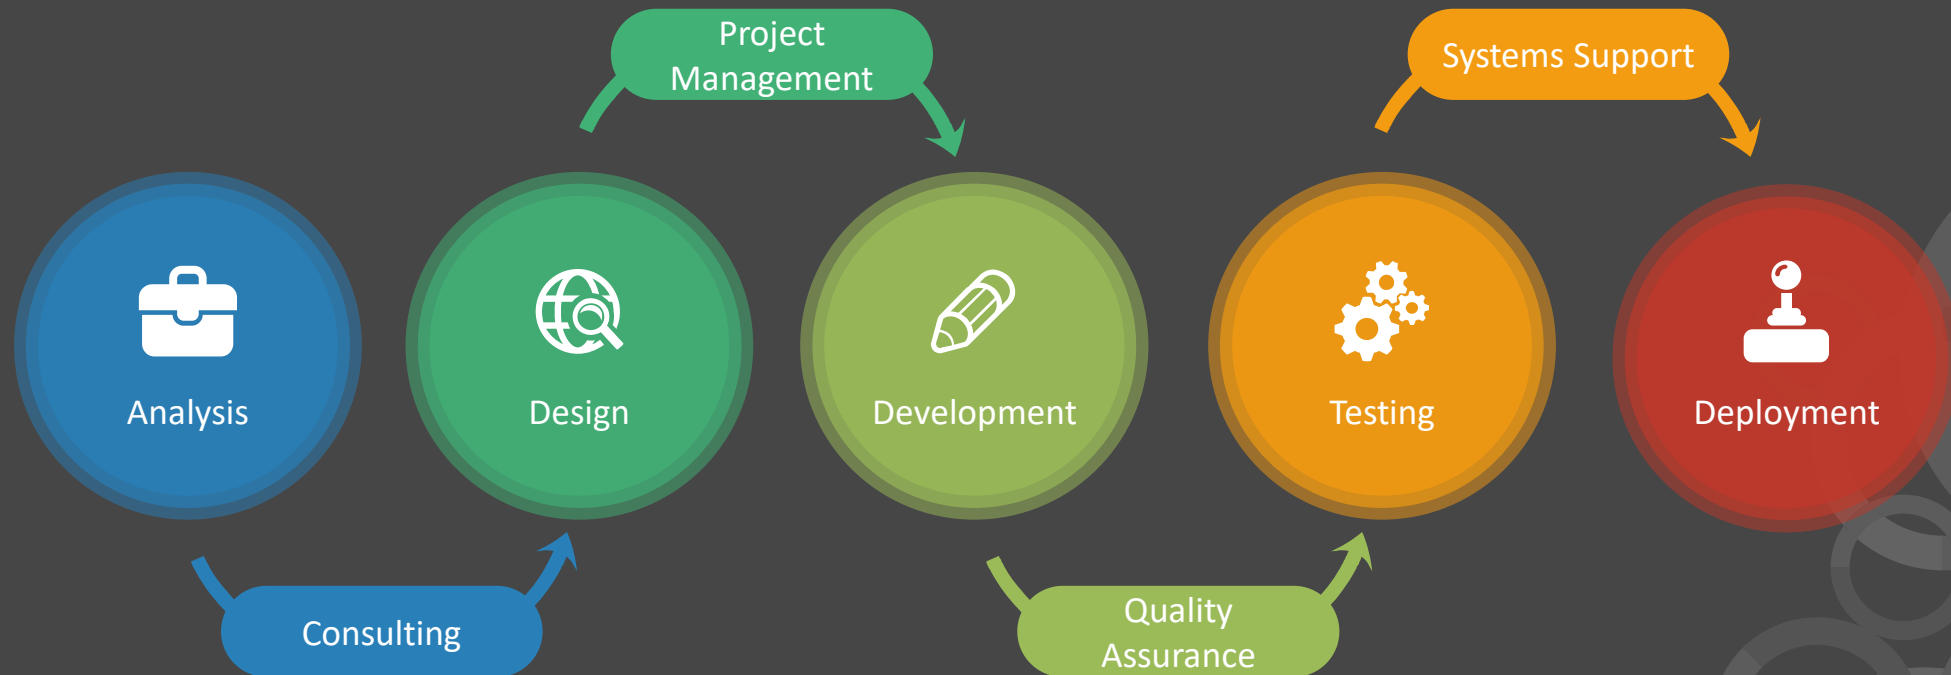

Enterprises Business Solutions

We develop progressive Solutions and let our clients chose an optimal mix of their preferred service delivery mechanism to achieve business efficiency and increase their customer lifetime value.
